

HEROES

For Hire

You've joined a guild before, right? So, where's the trouble in managing a guild of your own, too?

Guide your heroes, raid some dungeons, and grow your guild to rise from the bottom of the ranks right up to the top in Heroes for Hire!

The Rundown

- Use the GuildOS operating system to run the operations for a dungeon raiding guild.
 - Hire heroes and kit them up with skills, items and equipment to help them fill a niche role in the guild.
 - Send out your heroes to raid dungeons on their own, letting them fight and gather loot along the way.
 - Deck out your guild hall and attract guest merchants and services that provide shops and benefits.
 - Compete in tournaments with other rival guilds on your own save file, or across the globe.
- 
 - Optimize your workspace to make juggling the guild's goals as smooth as possible.

What is Heroes For Hire?

Heroes For Hire is a business management game where players take on the role of an owner of a dungeon raiding guild.

Players use the ingame GuildOS operating system to manage operations, such as handling employee relations, taking orders, attracting guests, improving the guild's rating and reputation, and sending heroes off to complete projects.

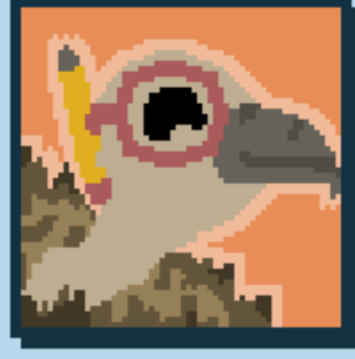

As the business grows, players will have to juggle more and more. By using ingame tools for automation and workspace management, advanced players can become the highest rated guild in the country, battling rival guilds for rewards at the same time.
